

ABOUT OUR CAMPS.....

For many children the summer months allow for regression in both academics and social skills. We believe summer is the perfect time to zero in on social skills and communication, while keeping students in a routine which helps them be successful during the fluctuating schedule of summer. At camp our curriculum is based on social skills and communication, however we do address emerging skills from the IEP or GAPP when appropriate. Our students have a great deal of fun during these sessions so it doesn't feel like work to them! These sessions fill quickly so you will want to reserve your place early in order to ensure a place for your child.
